

Quality Control Technician

Ripon Select Foods Ltd. produce high quality ingredients for the food industry.

Working closely with the Production Team your role will be to perform a series of tests to ensure our products appear and perform to the set standards. In addition you will also conduct regular audits and checks within the factory and report your findings.

Whilst previous experience can be useful full training is provided. To be successful, you will need good administration skills and an ability to carry out testing and record results accurately.

This is an excellent opportunity to work for a well-established company where benefits include contributory pension scheme, work-wear and generous holiday allowance.

To apply, please complete an application pack (CV's are not accepted).

Application packs are available by:

- Download from our website: www.rsf.co.uk
