

Vacancy

Applications are invited for the position of

Maintenance Electrician

Attractive Salary & Benefits

Established in 1974, Ripon Select Foods Ltd is an independent manufacturer of food ingredients (flour, rusk, breadcrumb and dry mixes) used in many leading branded products. We are a friendly, family owned business, and aim to offer job satisfaction and security.

- As part of a dedicated team, the ideal applicant should possess a broad-based electrical knowledge and understanding of electrical systems, preferably with transferable engineering skills and ideally, City and Guilds trained, with knowledge of IEE regs.
- You will conduct maintenance and fault-finding on existing systems, install, test and commission new three-phase and single-phase systems, assess materials and parts required for jobs and be able to work unsupervised and as part of a team.
- The role is primarily working days but includes being part of a call-out rota to support the shift engineers. Some overtime may be required.

Benefits include contributory pension scheme, generous holiday allowance and work-wear.

Applications will only be considered from those persons who have fully completed the application form, equal opportunities questionnaire and health surveillance questionnaire.
