

Applications are invited for the position of

New Product Development Technologist

Attractive Salary & Benefits, based in Ripon

40 hr per week, Monday to Friday

Ripon Select Foods Ltd is a successful family-owned business manufacturing dried food ingredients used in many leading branded products. We take pride in our family feel within our business and aim to offer job satisfaction and security. This is an exciting opportunity to join a growing Company that's investing in its' future. We are looking for a reliable individual to join our NPD team.

About the Role

Working a salaried position of not less than 40 hours per week, the role will be based in the New Product Development department.

Main responsibilities are:

- The development of innovative products and continuous improvement of existing products of coating applications and dry ingredient blends.
- Working closely with designated customer accounts.
- Assisting customers on key projects, presentations, and factory trials.
- Identifying new food trends and market gaps.
- Recipe development and reformulation to achieve a product that meets customer expectations, financially and technically feasible.
- Preparing kitchen samples as required.

About You

Ideally you will have a Food Technology degree or similar, have a creative flair with a genuine passion for food and a keen eye for detail. Experience gained through a food manufacturing environment which would ideally include product development from concept through to launch with the ability to present ideas in a clear and concise manner.

Benefits include a competitive salary, contributory pension scheme, and generous holiday allowance.
